

SHEATHED RINGS, EMBROIDERIES

ADVANTAGES OF THE TEXTILE FENDER

DESIGN AND MANUFACTURE

 Patent n° 13/00868

LIGHTWEIGHT

The lightest fender on the market, it offers quick and easy handling

SPACE SAVING

The fender can be deflated, then rolled or folded to save space

DESIGN

Its design in technical textile offers an incomparable design and its theard dyed makes it insensitive to UV.

ULTRA RESISTANT

The patented design is highly resistant to compression and tensile strength.

BUMPER, GARAGE & PONTOON FENDER

This system is easily adapted to a boat (bumper, garage, etc.), a dock or a pontoon in order to allow safe docking. Several sizes are available to meet your needs. Models are available on www.fendertex.eu

It consists of the following elements:

- 1 inflatable / deflatable textile fender FENDERTEX®
- Adjustable rings for attaching equipment to the dock or the ship attachment points. They are also equipped with handles that can be used to moor jet skis, tenders or toys.
- Spliced ropes.
- A universal inflation nozzle.

- 1 Bumper protection.
- 2 Garage door protection.
- 3 Pontoon and dock protection.
